

TWDB - Base Level Engineering CNMS Certificate of Completion

HUC-8 Watershed: # 11090105

HUC-8 Watershed Name: Lake Meredith Watershed

BLE Contract #: 2101792546

BLE Contractor: Stantec Consulting Services, Inc.

TWDB Contract Manager & Contact: [Tatum Lauten, Tatum.Lauten@twdb.texas.gov](mailto:Tatum.Lauten@twdb.texas.gov)

BLE Contractor Project Manager & Contact: [Mason Liebau, Mason.Liebau@stantec.com](mailto:Mason.Liebau@stantec.com)

FEMA Region 6 CNMS Coordinator & Contact: [Michael Johnson, michael.johnson@aecocom.com](mailto:Michael.Johnson@aecocom.com)

This signed certificate provides confirmation that the CNMS deliverable for the above-referenced HUC-8 watershed has been reviewed by a representative of FEMA Region 6 for both completeness and compliance with the CNMS BLE Update Guidance dated October 1st, 2023, or the most current guidance available as of the date of signatures below.

As of the date of the signatures below, the CNMS task can be considered complete for the purpose of the TWDB contract, and no additional review of deliverables is required. Additionally, this signed certificate indicates that the deliverables meet the requirements outlined by FEMA for inclusion in the CNMS database.

This signed certificate shall be supplied to TWDB and its designated independent technical reviewer by the BLE contractor as part of the final BLE submittal package. Omission of this certificate will render the submittal incomplete for the purpose of both independent technical review and satisfactory completion of contract requirements. It is the responsibility of the BLE contractor to obtain review of both the CNMS scoping and final deliverables by the authorized FEMA Region 6 CNMS representative and obtain all required signatures at the completion of this review process.

Signature of FEMA Region 6 CNMS Coordinator

Date

3/10/2025

Signature of BLE Contractor Project Manager
